Now, I think I am a good judge of a pitching staff, and want it announced that the men I have for the firing line are a heap stronger than the experts believe. The Giants are going to win another predict this because I know every man and have a good line on each man's abil-ity. Last year the Giants made a gallant fight in the face of many obstacles.

There is not a baseball man throughout the country who will not admit that we would have landed the pennant last year if Mathewson had not become ill in the south early in spring, and this misfortune was followed by injuries to Donlin which deprived us of our mainstay in batting. There were other mishaps, all of which counted against us. But I will never cry "hard luck." because obstacles such as we encountered last year are part of the game. We can only hope that we will be

more fortunate this season.

Every man on my team is in the best possible condition at this season of the lows I have are going to spring a sensation. Every man is fast enough for big company, and you will see that some of them will be too fast for the big sluggers.

Of course, I am a bit disappointed over Chase. But that boy will be on deck before long. fore long.
